

ENVIRONMENTAL SUSTAINABILITY AT ANSELL

Ansell is recognized as a world leading company in the safety industry. As a leader in our industry, our obligations extend not only to produce high quality products but to also conserve resources and protect communities through strategic environmental management. When it comes to sustainability in business strategy and operations, we emphasize dedication to the Environment as one of the key elements of sustainability.

WATER

15% INTENSITY REDUCTION IN WATER WITHDRAWALS BY THE END OF F25

- Our Reverse Osmosis projects will result in a reduction of our water withdrawal by 35%, once completed.
- Restore treated wastewater for reuse within our operations, in turn reducing our water withdrawal and overall environmental impact.
- Ongoing partnerships with World Resource Institute (WRI) & Aqueduct Alliance to implement future strategic water stewardship activities.

MATERIAL & WASTE

ZERO WASTE TO LANDFILL FROM ALL MANUFACTURING FACILITIES BY THE END OF F23

- Switch to recycled polyester for our gloves, preventing 225,000 PET bottles from going to landfill annually.
- 92% of waste from our manufacturing sites were diverted from landfill in FY21.
- Zero waste landfill of manufacturing sites targeted for 2023.

GHG EMISSIONS Green House Gasses

25% INTENSITY REDUCTION OF EMISSIONS SCOPE 1 & 2 BY THE END OF F25

- Biomass Hot Water Generators enabled us to replace fossil-based fuels.
- Expanding energy production from our Solar Photovoltaic Systems.
- Switching factories to 100% Renewable Grid Electricity.

PRODUCTS

THE SUSTAINABILITY PERFORMANCE OF OUR PRODUCTS HAS BECOME AN IMPORTANT ELEMENT OF OUR DEFINITION OF **HIGH QUALITY**

- 100% of packaging material to be recyclable, reusable or compostable by 2026.
- Digitize packaging components / product documents.
- New product technologies that contribute to nearly 80% of water-use reduction.

Ansell **GUARDIAN**[®]

Ansell **GUARDIAN**[®] assessments lead to injury reduction, reduced cost to protect, increased compliance as well as PPE portfolio complexity reduction. For more information, please visit ansell.com/services.
