Employee Voucher Program

The Smarter Way to Manage Employee Purchases

All-In-One Platform Makes it Safe and Easy

Solve the problem of wondering which worker is due for what supplies and when! With an Employee Voucher Program, you can turn the job of ordering over to them!

- Built-in transaction limits control purchase totals
- Hands off administration – vouchers reset on a schedule
- Lightens the load associated with day-to-day procurement

3 Steps to Complete Procurement

SET-UP

Build your voucher job classifications and select corresponding products

ORDER

Employee orders from your pre-determined product collection

SHIP

Orders ship to the workplace or directly to the employee's home address

Flexible payment options

Employees can buy on company account or use a credit card

Eliminate excess spending

Voucher transaction limits and purchase approvals end surprise budget over-runs

Standardize products across multiple locations

Great for employees in remote areas

Save valuable administrative time

Integrated features allow program to run on auto-pilot

View detailed reports

Track company usage and spend by location, department, or product class

See voucher eligibility

Employees and admins can see eligibility schedule at any time

Attract better job candidates

A voucher program is a great addition to your benefits package

Take the first step toward time-saving employee vouchers today.

Contact the Solutions Support Group at **800.949.6155** to learn how you can automatically assign purchases to your employees instead of manually processing and transferring funds. Our specialists will work one-on-one with you and provide **FREE** tools to train your employees, too.
